

## *Dr. Fisk Announces*

### *His Retirement*

Dr. Fisk has announced his retirement from Interlachen Pediatrics. His last day will be December 14, 2021.

Dr. Fisk joined Interlachen Pediatrics in 1992. He has been integral in helping forge Interlachen into the successful pediatric practice that it is today. He has taken the lead on many initiatives such as electronic medical records and our successful vaccine clinic program.

He joined Dr. Gary Carlson, Dr. Patricia Johnson, Dr. Ken Novick, and Dr. Lillian Regerro in The Pediatric Group in 1992. He and his partners watched the practice grow as it merged with Casselberry Pediatrics in 1995, becoming Interlachen Pediatrics. He has worked and lived in Oviedo for 30 years, caring for family, friends, and countless patients.

"I would like to sincerely thank my family, partners, and staff for 30 years of opportunity to mutually serve our many wonderful patients. Most of all I would like to thank the two generations of parents who have afforded me the privilege of caring for their children. I am proud to say that Interlachen Pediatrics continues to be staffed with some of the most kind and professional healthcare professionals available anywhere." - Dr. Tom Fisk
